50週或以上 (50 weeks or more)

5. 實例說明：請提供一個實際的例子來說明您如何執行下列選項之一

如何應對最大跌幅？做出了哪些決策，理由是什麼？ (How did you respond to the maximum drawdown period, and what was the rationale behind the decisions taken?)

請以500字內簡要描述主要挑戰、採取的操作、結果和吸取的經驗：

The Fund's largest drawdown occurred between June 2008 and January 2011. This decline was linked to the market turmoil caused by the global financial crisis, which saw liquid financial assets being sold indiscriminately against a backdrop of deepseated risk aversion.

During this period we stuck to our investment process, focusing on asset quality and company valuations.

In the months following the market bottom in early 2009 the Fund delivered strong performance as the market began to recognise fundamental value.
