Fund objectives and investment policy

The fund aims to provide capital growth by investing in equities of companies worldwide which the investment manager believes will benefit from efforts to accommodate or limit the impact of global climate change and which meet the investment manager's sustainability criteria.

The fund has environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 on Sustainability-related Disclosures in the Financial Services Sector (the "SFDR").

Relevant risk as associated with this Fund are shown overleaf and should be carefully considered before making any investment. Above is the Investment Objective of the fund. For details on the fund's Investment Policy please see the KIID.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Risk considerations

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Sustainability Risk Factor: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria. Therefore, the fund may underperform other funds that do not apply similar criteria. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Please see the KIID and Prospectus for a full list of risk considerations applicable to this fund.

Benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The full track record of the previous index has been kept and chain linked to the new one. The fund does not have a target benchmark. The fund's performance should be compared against the MSCI All Country World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. The fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The investment manager will invest in companies or sectors not included in the comparator benchmark. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) On 01.05.2021 the MSCI All Country World (Net TR) Index replaced the MSCI World Index.
